MEMORANDUM FOR: Executive Secretary, [REDACTED] Board

SUBJECT: Review of Consultants/Collaborators, LS/SI

25X1A

25X1A

1. In December [REDACTED] asked me to look at the list of consultants and collaborators in the Life Sciences in OSI to get an opinion as to their quality. He also wished to have the list reviewed by [REDACTED] so that [REDACTED] could indicate his assessment of the list at some future date.

25X1A

25X1A

2. In a sense I should disqualify myself from reviewing this list since many of these individuals were selected by me or during my tenure in OSI. I would like to have you forward the list to [REDACTED] for his review.

3. It should be kept in mind that this list is not complete in that there are many other scientists who served on panels, committees, and so forth who were briefed and provided ad hoc opinions at different times. Many of the members on this list were used for very specific evaluations. Many were used infrequently, whereas others were used very frequently. It should give a general picture, however, of the level of consultative service available to OSI in the Life Sciences.
